Figure 1. Schematic representation of the experimental setup. The subject is seated in front of a computer screen. The screen displays a target (a red dot) and a starting point (a green dot). The subject is asked to move the hand from the starting point to the target. The distance between the starting point and the target is the reach distance. The distance between the starting point and the hand at the end of the movement is the final distance. The distance between the hand at the end of the movement and the target is the error distance. The error distance is the difference between the final distance and the reach distance.
